

Dear Healthcare Professional,

JAMP Pharma Group is pleased to introduce JAMP Teriflunomide, a lower-cost generic alternative to AUBAGIO® for your patients with relapsing remitting multiple sclerosis (RRMS).

What is JAMP Teriflunomide?

JAMP Teriflunomide is a generic of the teriflunomide molecule and considered a generic alternative of AUBAGIO®, the originator reference product.

- JAMP Teriflunomide is indicated for monotherapy for the treatment of patients with relapsing remitting multiple sclerosis (RRMS) to reduce the frequency of clinical exacerbations and to delay the accumulation of physical disability.
- JAMP Teriflunomide is available in cartons of 28 or 84 tablets of 14 mg.
- You have the option to switch your patient to this lower-cost alternative.

JAMP Care™ Patient Support Program

Patients taking JAMP Teriflunomide can receive support through the new **JAMP Care Patient Support Program**. JAMP Care offers many additional services to both healthcare professionals and patients, including:

| JAMP Teriflunomide | JAMP Care |
