JAMP Dimethyl Fumarate (dimethyl fumarate) is indicated as monotherapy for the treatment of relapsing remitting multiple sclerosis (MS) to reduce the frequency of clinical exacerbations and to delay the progression of disability. Consult the Product Monograph at [www.jampinfo.com](http://www.jampinfo.com) for contraindications, warnings, precautions, adverse reactions, interactions, dosing, and conditions of clinical use. The Product Monograph is also available by calling 1-866-399-9091 Option 2.
